## Run of Day - Roll Call, Inspection, Running, Times/Ribbons

**Roll Call/Check In** will start at 8:30am unless the committee and secretary are set up and ready to start taking dogs earlier. Make sure to be checked in 30 minutes prior to your time block.. Check in for current blocks will take priority. If you cannot make your assigned block, we will do our best to work you in. There is no guarantee that you can run if you are not checked in by 3:30pm. You will check in at the secretary table and will be given your card(s) for the day. You must check in each day. **Worker dogs may run as early as 7:45am and may also jump the line.**

## Fast CAT Summary Description

The Fast CAT Test is a timed 100-yard dash for dogs. It is meant to be a fun and healthy activity of interest to any dog owner. The following is a summary of how the event is structured.

### How does Fast CAT Work?

1. Fast CAT is a timed straight race of 100 yards.
2. Dogs run singularly.
3. The dog's time to complete the 100-yard dash is converted into MPHs. The calculation to convert to MPH is as follows:  $204.545 \div \text{dog's time} \times \text{handicap} = \text{POINTS}$ .
4. A handicap system is applied to a dog's MPH to determine the number of points earned. The handicap system is based on the height of the dog at its withers.
  - 18" or greater = handicap is 1.0
  - 12" up to less than 18" = handicap is 1.5
  - Below 12" = handicap is 2.0
5. Points=MPH multiplied by the dog's handicap
6. Fast CAT titles suffix titles are earned at designated milestones:
  - BCAT = 150 points
  - DCAT = 500 points
  - FCAT = 1,000 points
  - FCAT# = every additional 500 points
7. Top 20 by Breed by Year: The AKC Fast CAT website will feature the [Top 20 Fastest Dogs by Breed](#) by Year national standings. The standings will be updated as event results are processed.
8. Eligibility to participate: Open to all dogs at least 12 months of age that are individually registered/listed with the AKC. This includes dogs recorded in the FSS program, dogs with PAL numbers, or dogs enrolled in the AKC Canine Partners program. Females in-season may not enter. A dog may enter only once per event (An event number defines the event.)

**Event Secretary:** **HarmonyDogSports, LLC**

Jack and Kari Loken

[www.HarmonyDogSports.com](http://www.HarmonyDogSports.com) | [HarmonyDogSports@Gmail.com](mailto:HarmonyDogSports@Gmail.com) | 303-345-7895

9. An inspection committee shall inspect each entry for lameness, fitness to compete, and females in-season. The inspection committee is responsible for measuring the height at the withers if necessary.
10. Safety: Safety is of utmost importance. The event committee is responsible for ensuring the safety of the course, the equipment, and the conduct of those involved in the event. It is recommended that the event committee run a test dog before the start of the event to ensure that the equipment functions correctly and that all personnel understand their jobs.
11. The Start: Dogs may start up to 10 feet behind the starting line. There will be a line on the ground indicating the 10-foot mark. Both front paws must be forward of the release line.
12. The Finish: The club must provide enough room for a safe run-out area. It is required that this be a minimum of 30 yards, however, this is up to the club's decision, given the specifics of the setting. The club should consider fencing at the end of the course to help collect the dogs. It is recommended that an owner or someone familiar with the dog stand at the finish to catch the dog once the course has been completed.
13. Timing Devices: The time to complete the 100-yard dash is recorded to the nearest 1/100<sup>th</sup> of a second (i.e. 9.11) The club will use break the beam equipment to obtain the time. If the timers fail, stopwatches will be used, and two timers will be positioned at the finish line. An individual at the start line shall signal with an arm drop the moment the nose of the dog crosses the start line. The timers shall start their stopwatches at the beginning of the arm drop. The timers shall stop their watches when the nose of the dog crosses the finish line. The times from the two stopwatches shall be averaged to determine the recorded time.
14. Lure Equipment: The event will be run with a reversible, variable speed, continuous loop system. The lure operator and the lure equipment shall be safely positioned in a manner that does not interfere with retrieving the dogs at the end of the course.
15. Lure: A white plastic bag will be used for the lure.
16. Course/Fencing: The course is essentially flat, on grass, and the course area is fenced with 4' white rope fencing
17. The Hunt Master has control of the course. In summary, the Hunt Master is in charge of all dogs and handlers on the field, shall ensure handlers understand safe release and retrieval procedures, shall provide the lure is positioned correctly, shall ensure the lure operator, timers, and starting line signal person are ready, shall signal the lure operator to start the lure and shall give the verbal signal "tallyho" to release the dog.
